DEDICATION

This work is dedicated to our immigrant ancestors who came to this new land to live and work and build a better life for themselves and their descendants. With them they brought their Catholic faith, stalwart courage and love of freedom and peace.

THE FAMILY TREE

Some people say that they do not care or want to know about their ancestors. Usually as one gets older there is more of an interest. When one is young, this information seems so unimportant, and when one gets older, there is no one here to ask. The greatest gift that we can give our children is their heritage and ancestry.

We hope that everyone will enjoy this book and find it as interesting as we have. This May - Homan Stammbaum is not just a genealogy of direct lines. We have tried to expand on all ancestral lines. Note the names on the roots of the tree, page 87.

Der Stammbaum is German for The Family Tree.

I N T R O D U C T I O N

It has been a delight working on the May - Homan ancestry. I have been working on the Homan family tree for more than three years, beginning by reading the records of the Herbern Church. Since this time I have learned to read the old German Script and thus recongnize names in the records. It is still difficult to read these records because each priest had his own style of writing. As my research progressed I was able to get my sister, Rita Timmerman, interested. She has helped on the May research on the Walstedde Church records. Rita has done much of the work on the family information here in the United States. Much of the information on the families in the United States came from public records, death cards, newspaper articles, census records, and direct contact with families.

We have been as careful as we can to copy the records accurately. The old script letters are not always clear. Also, the names were spelled one way in one record and differently in the following records. We have copied them as they were in each record. We have traced the lineage as accurately as possible. If anyone finds any mistakes, we would appreciate knowing this.

No genealogical research is ever finished. The family tree continues to grow new branches and old ones die off. We would like to update this family tree in two years. At this time we would also like to include any corrections and new information. So please send this information to us.

THANK YOUS

We wish to thank all the people who have helped us to make this book possible.

We would like to thank all the people who have so generously cooperated with us in giving their family information.

To my sister, Rita Timmerman, especially, without her help this book would not be possible.

To Pauline Homan Rethman (Mrs. Joseph Rethman, Day Road, Versailles, Ohio) for her continued interest and information about many of the Homans.

To Pauline and her sister, Rosa Homan Albers (Mrs. Alfred Albers, County Road 219A, Celina, Ohio) for their help in translating the letters we brought back from Germany. These letters were written by our ancestors and their friends, and are included in the book.

To Mrs. Ben Penno, Minster, Ohio, for her help on the Theodore and Henrich Homan families.

To Lester Homan, Coldwater, Ohio, for getting us started with the first information from Henrich and Maria Homann who live in Herbern.

To the May families in New Haven, Indiana, for the information on the Bernard Theodore May Family.

To Anthony Tinnermann, Columbus, Ohio, for his close contact with the May families in Germany.

To Henrich and Maria Homann, Herbern, Germany, for all their help, their copies of the old letters and documents. Also, for their hospitality when we visited them in June, 1981.

To Anton and Johanna May, from Ameke, Walstedde, Germany, who gave us copies of the documents concerning the May brothers. We wish to thank them and also Karl and Paula and the children for the hospitality shown to us when we visited them in June, 1981.

To all our cousins in Germany for their information about the families in Germany and the emigrants.

To Fr. Fortman for all his information on the Homan, May, and Wellman families from Herbern, Germany. His dream, to publish a book about the history of St. Anthony Parish and its early settlers, has been partially fulfilled with our book.

EXPLANTION OF NOTES AND ABBREVIATIONS

There are many things to remember when reading German records. Sometimes the records are in German script and sometimes in Latin. Some priest switched from German to Latin and Latin to German when recording the event. German babies had many given names, and were usually named for the sponsors. The name generally used was the name closest to the family name. Ex. Johan Henrich May was usually called Henry May.

The records in this book are as accurate as possible. There may be errors in spelling, but the records have been copied as close to the original as possible, whether we thought it was mispelled or not. The priests did not always spell the name the same from one record to the next. They shortened the names in many places, so there are many abbreviations, which are in the records, not our abbreviations. Sometimes the name was given the Latin spelling rather than the German.

Names May Be Written Thus:

John	Joan, Joanus, Johan, Johann, Joes	
Gerhard	Gerd	
Henry	Henricus, Heinrich, Hen. Henrich	
Elisabeth	Elisa, Elis., Elisab.	
Christina	Xtina	
Catharina	Cath., Cathar	
Bernard	Ber., Bernd.	
Maria	Mar., M.	
Anna	An., A.	Dirk, Dirck - Theodor
Walterbusch	Walterb	

Abbreviations Used:

yt.	known as	These were used to connect
gen.	known as (genarnd)	names, family names, usually
y.	known as	the mother's maiden name.
g. gnd.	known as	
dicta, dictus	Latin for known as or called	
bp.	baptized	
b.	born	
m.	married	
d.	died	
bur.	buried	
ch.	children	
pr., par.	parents	
sp.	sponsors in baptism	
wit.	witnesses to marriage	
ux.	Latin uxor, meaning wife	
sche	added on the end of a female's surname.	

The dates are written in the military manner (4 May, 1780). When the date is written 4 May 6, 1780 this means the 4 is the birth date and the 6 is the baptismal date. The month is always written out, it is never written as a number. The years are written complete, such as 1860, 1960, not '60.

EXPLANATIONS CONTINUED

dau.	daughter
ch:	children
Kind, kinder	German - child, children
Frau	German - woman, wife
zu	German - at
Anno	Latin - year
ex	Latin - from
obiit e. ā.	Latin - died the same year
illeg.	illegitimate - sometimes it meant either the father or mother were not a member of the Catholic faith.
Xber	Dec.
9ber or 9bris	Nov.

Homestead - has been used to mean the family home and farm. To be correct, Bauernhof or Hof should be used for the family home in Germany.

Eliz or Elis - When first reading the old German records we assumed that Elis. was written Eliz. Since that time we have learned that there was no z used in the name Elisabeth, it was always with an s. So when you read Eliz. or Elizabeth you know it should be an s. In America we use the z.

Death Date - When reading 6 March 8, 1850, it means, the person died on the 6th and was buried on the 8th.

CHURCH RECORDS

The genealogy information included in this Stammbaum goes back to 1599 when the church records began in St. Benedictus Church in Herbern, Westphalia, Germany, the homeland of the Homans, and to 1648 when the church records began at St. Lambertus Church in Walstedde, Westphalia, Germany, the home of the Mays. These two churches were very close to each other, possibly only ten miles apart. These records do not go back farther because the church records began in Europe after the Council of Trent 1545-1563. The Council decreed that record keeping was to begin for all baptisms, marriages, confirmations, and deaths. Although, the marriage records began in 1650 and the death records did not begin until 1709 in Herbern. It was not until 1779 that the full name and age of the dead person was recorded.

For some reason the records did not begin immediately after the Council of Trent, or they may have been destroyed during the many wars, especially the religious war. The Thirty Years War 1618-1648. In Herbern baptisms were recorded from 1650 to 1684 from bits and fragments. Baptisms missing were from Oct. Nov. Dec. 1677 and all of 1678 except July. All of 1679 and 1680, 1681, 1682, 1683 are missing, and 1684 until Oct. Next records begin Oct. 1684. All the actual dates of our ancestors before their arrival in America have been verified from actual documents.

The records herein on the Homans cover the ancestry of all the Homans who settled in Mercer County. There were three brothers, Joseph, Bernard, Gerhard, one sister, Carolina Homan May, two first cousins, Theodore and Henrich Homan, and one niece, Anna Homan Knapschaper, who came to America from Herbern, Germany and settled in Mercer County. In this book all the emigrants are identified with a line under their names. The records herein of the May brothers, Bernard Theodore and John Henrich May, who emigrated to America are from the St. Lambertus Church in Walstedde.

Generally the Catholic Church records began after the Council of Trent 1545-1563. The Council was called to counter the Protestant Revolt. It required that all priests must keep records of their congregations: the birth, marriage, death, confirmation, and family census. The bishops visited and checked records and signed the books. The council required that there should be no more clandestine or secret marriages. It became church law to have 3 witnesses at each wedding, one priest and two lay persons.

All the records of the Homans have been found in Herbern and all the Mays in Walstedde. Where there is an exception, this is noted. This is for the families before they emigrated to the United States.

HISTORY OF GERMANY

The first Germans were known to the ancient Romans. The early Romans had outposts and cities in many parts of Germany as we saw the evidence in Baden-Baden, Cologne, Aachen and Trier ruins when in Germany June, 1981. Trier was the Imperial Capital of the Roman Emperor Constantine the Great for ten years around 300 A. D. His church and throne hall are still standing today. Constantine made St. Helena, his mother, Empress and Trier was her home for many years. She brought the True Cross and Holy Robe to Trier. The Robe can be seen only every 20 or 30 years.

Constantine moved his capital from Trier to Constantinople because he feared the Germanic tribes and felt that his capital was not safe. By 400 A. D. the Germanic armies had gone into and taken much of Italy. The strongest Germanic tribe was the Frank tribe, and the greatest Frankish ruler was Charlemange who came to power in 768, with his capital at Aachen, Germany. In 800 A. D. Pope Leo III crowned him Emperor of the Holy Roman Empire. This really is the beginning of the history of the German country. After Charlemange's death, at the Treaty of Verdun, in 843 the empire was divided into three kingdoms, one for each of his grandsons. The western part, became France, the middle part was from the Baltic Sea down into Italy (contained Alsace and Lorraine), and the eastern part, under Louis II the German, became Germany. This empire contained about 300 large and small territories which were semi-independent. About 39% of these principalities were ruled by bishops. The Holy Roman Emperor ruled over Bohemia, Austria, Belgium, Baden and the Black Forest area, and was the overlord of all these territories.

For centuries, the Electors of Germany helped to elect the Emperors. The Arch-Bishop Elector of Cologne was one of these electors. Westphalia was included in these political events up into the 16th and 17th centuries. The Bishop of Munster was under the Archbishop of Cologne.

From the 1400's on there was much unrest in the German states due mostly to religious problems. This was the time of the Protestant Revolt and the Catholic Counter-Reformation.

Despite the political and social disorder of the 1500's, Germany was on the whole prosperous in these years and was undergoing a spiritual and intellectual revival. Free cities grew, trade increased. Germany was influenced by the Christian Renaissance. There was the Protestant Reformation and the corresponding Catholic reforms, through the Council of Trent 1545-1563. At this time Germany was ruled rather loosely by Charles V of the Holy Roman Empire.

The Council of Trent was a very important Papal Council. There were several church rules that came out of the Council of Trent that are very important to genealogists. One was that the Catholic priests in the parishes were required to keep records of all baptisms, confirmations, marriages and deaths. At this time many people were married privately, and there was no civil or church record of the marriage. This led to Clandestine marriages and other abuses. Thus the church required that every marriage needed three witnesses and one of these must be a Catholic priest and two lay persons.

Even though records were ordered at the Council of Trent, 1545-1563, very few church records go back that far. Probably many records were destroyed during the Thirty Years War 1618-1648, during which time the Lutherans and the Catholics alike burned each other's churches. Although the Thirty Years War involved all of Europe, it was fought mostly in Germany. This war was essentially a religious war, Catholics against Protestants, Lutherans against Evangelical Churches, and others. The Thirty Years War was fought in all areas of Germany and left most of it destroyed. It has been reported that more than 30% of the population was annihilated. Thousands of castles, towns and villages were destroyed. Churches were destroyed including their records. At this time, the ruling Prince of the territory would dictate the religion of

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

his subjects. Thus as a result of the fighting, losing and gaining control, the religion switched back and forth.

For three decades there was much death, disease, and destruction. There were few pitched battles, and these were unimportant compared to the appalling loss of lives from famine, disease, and the brutality of soldiers out on the loose. The armies on both sides plundered, burned, tortured and killed everyting in sight. It has been said that in Bohemia there was an almost unbelievable situation. The total population was reduced to two-thirds and could be to a possible half. Loss of property was still greater. Others say that in Wurtemberg the population was reduced from 400,000 to 50,000. As a result of this devastation there was a lasting result in the complete moral and cultural degradation of a people who in the previous century had been the cultural and religious leaders of all Northern Europe. Germany no doubt, had been set back a century. Catholic and Lutheran Germans both regret these conflicts. Germany lost more as a result of these wars than she did as a result of both World Wars. France who came late into the war, gained the most. France received the Bishoprics of Metz, Toul, and Verdun and the control of Alsace except for the "Free City" of Strasbourg. France was now close to the Rhine.

The War was settled at the Peace of Westphalia in 1648. This was the first great European peace conference. It was signed in the Westerwinkle Castle, which is just a few miles west of Herbern, Germany, in Munsterland. While in Germany, June, 1981, we toured this castle and saw the original paintings, furniture, and furnishings. The Treaty of Westphalia was an important treaty. It ended the period of religious strife and marked the beginning of the new era of wars for economics and for territories. In its adjustment of territorial boundaries and the recognition of the sovereignty of states it laid the foundations for the modern states of Europe. The religious issues of the Thirty Years War were almost forgotten in the settlement. However, there were a few reli-

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

gious decisions. Secularized lands that had formerly belonged to the Church were to remain in the possession of those holding them. The Lutheran, Catholic and Calvinist princes were given the right to determine legally the religion of their states. However, Germany was too impoverished for any ruler to force the religion on his subjects. A General result of this was religious tolerance. By 1660 all of Europe was at peace, the result of total exhaustion. The Holy Roman Empire was weakened even though a ruler was still elected. France emerged as the first powerful state of Europe.

Even though the Treaty of Westphalia established peace, peace did not last long. During the 1600's, 1700's, and 1800's, there were many wars in Germany and Europe. After the Thirty Years War, 1618-1648, there was the War of Austrian Succession, 1740-1748, the Seven Years War, 1750-1763, and the Napoleonic Wars, 1806-1815. The Regensburg Diet of 1803 dissolved all ecclesiastical authorities. The Holy Roman Empire came to an end when in 1806 Francis abdicated as the last Holy Roman Emperor as a result of Napoleon. In 1815, the defeat of Napoleon led to the formation of the German Confederation with 39 states. The German Revolutions were in 1848, the Wars for German Unification in 1864, the Seven Weeks War in 1866, and the Franco-Prussian War in 1870. In 1866, Austria ceased to be part of Germany and the German Rhenanian Federation was dissolved. Germany received Alsace and Lorraine in 1871, which France had seized in the 1600's. After 1871, Prussia annexed most of the German states, as a result of the work of Kaiser Wilhelm and Bismark.

The Germans began to come to America in the early 1700's, especially from the Palatine area, which is directly above Alsace and Lorraine area. The second wave of emigration began in the 1830's and the 1840's. Another wave came in 1848 as a result of the revolutions. Waves of emigration continued from the 1850's into the 1870's.

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

There were many reasons for the emigration from Germany to the United States. The wars and the military service in Germany seemed to be the biggest reason. Along with this was economics, there was a promise of cheap land in America. In the 1800's areas of Germany were becoming over populated, and there was not enough land for the sons in the family. Usually the oldest son inherited the farm and the others went elsewhere. Brothers, neighbors, and friends wrote from America to Germany to tell of the good life in America. As a result, more people came. Single men and women came, as well as newly married and also those with families. All ages came. Reading ship records prove this.

Many Germans settled in Ohio, especially in the areas of Mercer County, and Seneca County. The Precious Blood Sisters and Priests built convents. Where the convents were, there were German Settlements.

Life in Mercer County was not always easy. Life centered around the community, church and school. There was always a concern for the health of the people, as they worked against the elements of the weather in clearing the land and building their homes. These Germans kept their customs and languages in these close communities. Life prospered in the late 1800's.

When the World War I broke out, this was a sad time for the Germans in America. They were pressured into dropping the German language in their churches and schools. Books and everything German was dropped, and even contact with their German relatives in Germany was discontinued. However, today the Germans are proud of their heritage and want to know who their ancestors were. Many are making contact again with their relatives back in Germany. Our relatives in Germany have been very gracious and helpful to us. They also are becoming interested in their ancestors and also relatives in America.

OUR VISIT TO GERMANY

In searching for our ancestors the names in the records were no longer names. They became real people to us. Our imagination ran rampant, we felt their joys at a wedding or at the birth of a new son or daughter, and their sorrow when the infant or new mother died. When our great-great grandfather May died, the survivors listed in the records included two sons in North America.

While working on this family tree, I felt a great desire to see the lands of all my great-grandparents. Thus, in June of 1981, my daughter, Regina, and my uncle, Marvin May, and I went to Germany where we visited the Mays and the Homans in Munsterland. We saw the ancestral homes of the May, Homan, Selhorst, Griesdorn, and Naendrup Families. Also the Walterbusch home.

We wish to thank the Antonius May and the Anton May Families of Walstedde for such a great visit. We wish to especially thank Johanna and Anton May for copies of the old May documents. We also wish to thank Heinrich and Maria Homan of Herbern for copies of letters written by our ancestors to Germany.

Gertrud Serve, of Langenfeld, Germany, a descendant of Marchereta May Avermann, a sister of John Heinrich and Bernard Theodore May, gave us additional information on the ancestors. She informed us that the outside ovens are still standing on the Avermann farm. The bread, which the May brothers brought on their trip to America, was baked in these ovens. The sister baked the bread because their mother had died in 1857 and was not there to help. Gertrud also gave us a copy of a letter that my great-grandfather, John Heinrich May had written to Germany in 1904.

During our visits in Germany, our relatives informed us that a member of the May family came to America as early as 1840. They did not know who he was or where he settled. There were Mays in Mercer County early but we do not know if these people are of the same family. They informed us that the May brothers departed from the port of Hamburg. However, the passports of Bernard and Gerhard Homan showed that they left from Bremen.

When the Germans emigrated to America, they usually came in groups. Many others came from the same town and settled in the same areas here in the United States. In Munsterland, where the Homans and Mays lived the farmers lived in dwellings right on his own farm. The house and barn were connected and they still are today. The farmers did not live in villages as they did in other areas of Germany, Belgium, and France. It was and still is the custom for the oldest son to inherit the farm, and live there on the farm with his parents. As the younger children would leave the farm, each would receive some monetary sum as his share of the inheritance. The May brothers each had a thousand talens (like a mark or dollar) when they came to America. They had enough money to buy farms in Mercer County, Ohio. One cousin says he remembers as a child seeing Grandpa's vest with the hidden pockets where the gold was sewn in.

Another custom in Germany was that there were certain times when the man took the woman's name. If a woman owned a farm, her husband took her name or the name of the farm when they married. For example, Bernard Heinrich Homann married Anna Maria Griesdorn. Since she owned the farm he was known as Bernard Heinrich Homann genant (called) Griesdorn. Anna Maria died young and Bernard then married Maria Elis. Walterbusch who also was known then as Griesdorn. All of the children were known as Griesdorn as long as they lived on the farm. When they left and came to America they took back the name Homan. The oldest son in Germany was still known as Griesdorn and when he died his death was recorded (in Herbern) as Griesdorn - not Homann.

Family stories and memories of the past tell us that Joseph Homan was the first one to come to Mercer County from Herbern, Germany. The exact date has not been determined, but he came early to escape military service. He would greet all the newcomers and find them a place to stay and help them to get a job or buy land. He had the reputation of being a friend to everyone. My great-grandfather John Heinrich May and his second wife would visit him on Sunday several times a year. They would stop at his first wife's niece, Anna Homan Knapschaper, east of Coldwater, for dinner and then go on to St. Rose to see Joseph Homan.

Family tradition tells us that John Heinrich May had plans to marry Gertrude Darbuck and come to America in 1858. Their marriage banns had already been read at Walstedde church. Then John Heinrich May had a serious farm accident and was not expected to live. It has been said that the top of his head was removed and others say he had a broken back. Neither story can be verified. When he was not expected to live, he told his brother to marry his fiancee and go -- because the ship's passage had already been paid. The church records verify the banns were read for Gertrude and Johann Heinrich, and a dispensation for her to marry Bernard Theodore May is recorded where the marriage for Bernard Theodore and Gertrude is recorded 27 Sept. 1858. Soon after their marriage, Bernard Theodore and Gertrude Darbuck May came to America, because Bernard Theodore May bought land in Mercer County in 1858. The family said that their relatives, uncle and aunt, a Mr. and Mrs. Tinnerman or (Timmerman) came at the same time. These Tinnermans lived near Fort Wayne.

Johan Heinrich May recovered from his accident and then went to America to join his brother. When he was traveling on foot from Minster to St. Anthony, Padua, a man with horses and wagon called for Bernard Theodore to get in. It was Johan Heinrich. He looked so much like his brother the man thought that is who he was. Johan Heinrich May bought his first land in 1860 and he is also listed in the 1860 census with Bernard Theodore May and Gertrude May.

Since Joseph Homan was so widely known, Johan Heinrich also knew him, either before he came to America or after he came here. Herbern and Walstedde are only about ten miles apart in Germany. So we do not know if the Homans and Mays knew each other before they came to America. However, Johan Heinrich returned to Germany in 1861 to marry Carolina Homan, a sister of Joseph Homan. He brought her to America to live on the May farm just north of St. Anthony Church, Padua, Mercer County, Ohio.

Several years later Bernard Theodore and Gertrude and their family moved to a farm near New Haven, Indiana. The reason for this move was their farm along the Wabash River was always being flooded. He wanted to have drained land.

When we visited the May and Homan families in Germany they began to ask about other families who came to America. Many were Mercer County Names.

We Americans are interested in our ancestors in Germany, and the Germans are now becoming interested in their family members who emigrated to America.

We are eagerly awaiting their visits to America. We want to show them our land and where their relatives lived. This will be a great joy for us.

When I wrote to Germany to thank them for such an enjoyable visit, one cousin wrote back - "Don't forget that your visit in Germany was a great experience for us, too."

While in Germany we visited the many cities important in the history of Germany and of our ancestors in Munsterland. We visited the cities and cathedrals in the city of Munster, Cologne, Trier, Aachen. We saw the throne of Charlemagne in Aachen, the burial, his gold burial casket, his cathedral. We saw the burial places of the Archbishops of Cologne in the Cologne Cathedral. We saw the ancient Roman ruins in Trier, Cologne, and in Baden-Baden. We saw many Castles especially in Munsterland. The farmland in Munsterland is level and flat , very much like Mercer County.

During our visit to Germany we stayed with the Antonius May family in Hamm. Antonius and his wife Annette and son Thomas live in a condominum in a suburb or Hamm, a city south of Walstedde. Antonius is the manager of a Coffin Firm. Wooden coffins are used in Germany so they will be disintegrated in twenty years. The grave can then be used for someone else. Antonius' hobby is growing flowers which decorate his apartment house. He has many rose bushes around the apartment complex. My daughter Regina stayed with Annette's sister Beati Glunz, in the Glunz home next to the Coffin Firm.

Anton and Johanna and their eldest son Karl and family live in Ameke on the original May homestead. Karl is married to Paula Schüttelhöfer, and they have five children, Melanie, Nadine, Alexander, Denise and Carl. The buildings have been rebuilt after they were destroyed by fire in the 1950's. The house and

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

barn are of brick and are attached by a breezeway. The farm is large and they grow hay, grains and raise many pigs. The pigs are grown in contained pens, very modern. There was a large garden with the usual vegetables. Their farm land is very level and loamy and drains quickly. Very narrow blacktop roads lead to the farmers' fields. We were served several lunches and evening meals there in their large formal dining room. In Germany, the most important room in the house is their dining room where they receive their guests. Guests are always served something.

Anton's brother Hugo lives with his wife Agnes, son Hans, and mother-in-law Oma Grieve, in a large brick two-story home in Walstedde. The house is fairly new and is built right on the street, with a small back yard, mostly of roses and garden. Agnes has a small card and gift shop in her home. Hugo works in a lumber and building materials concern. Hans is still in school, plays the piano quite well and speaks English. Hans eagerly acted as our interpreter. We were invited to their home twice during our German stay. On Saturday evening Agnes had her sister Maria and her husband there to meet us. Maria's husband Hans Kraus is a retired famous German actor. He could speak English very well and he and his wife have visited and toured the United States.

On Sunday we were invited to Anton and Hugo May's sister Adlheid's home. Adelheid is married to Johannes Wallmeyer and has a grown son. They live on a large dairy farm near the city of Hamm. There is a large 16 room brick house attached to their barn. They use milkers but do not have a pipe line system, nor a silo. They feed mostly dry hay.

Adelheid showed us the hugh kitchen in her home and large cellar. She preserves much food in glass jars as well as curing meat in a barrel with salt and pepper. She bakes all her own bread, and also has a large freezer. To make use of so many rooms Adelheid has seven male roomers, providing breakfast for these men who work in Hamm. I believe that Adelheid must work every minute of the day.

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

When in Herbern we visited the Homann Hof on Forsthovel Road. Maria and Heinrich Homann and their daughter Gertrud, her husband Ludger Everwand and son Markus live here. Grandmother also lives in this large home. The brick buildings on the Homann farm are new, since the old ones were burned during World War II. The Homann farm house and barn buildings are connected and built in an L-Shape. Maria Homann invited Heinrich's brother, Hubert, and wife, Christine, and a daughter Susanne, from Hamm to visit with us when we were there. Maria Homann took us around to see the Hofs of the Naendrup, Selhorst, and Walterbusch families, also the Griesdorn Hof.

While in Germany we also visited another May cousin, Gertrud Serve, who is descended from Marchareta Mai, a sister of Johan Heinrich Mai, my great-grandfather. Gertrud lives with her husband Willie and son in the city of Langenfeld, which is between Dusseldorf and Cologne. They live in a three-story stucco house connected to another house on one side, built very close to the street. They have a one-car detached garage and a garden in the back. They live in a very nice section of the city. The Germans have very large homes because each child has his own room. Gertrud and her daughter, Gerda, took us to Cologne where we saw the famous Cathedral, Dom Platz, and museum. We also saw the famous Rhine River for the first time. In the evening we met Gerda's husband and Gertrud's daughter Anne. Her son Heinz was in the hospital recovering from an accident. We spent the night in their home. Gertrud and her son have been sending us much family information and pictures.

In the town of Nottuln, west of Munster, we visited the Edelkamp family. Josephine is the niece of Christine Bussmeier, a life-long friend of the Gerhard May family, Portland, Indiana. Christine immigrated to Cincinnati from Oelde, Germany which is near Ahlen and Walstedde.

Some of the other German homes we visited were the Schaubaum and Ostermann and Avermann homes near Walstedde.

We had such a delightful trip and the German relatives really showed us wonderful hospitality. We hope that they will come to the United States to visit us so we can entertain them.

Short letter when the mother dies

Santa Rosa
Feb. 9, 1869

Much Beloved Brother, Sister and Brother-in-law,

Your writing from 3 of January I received yesterday so I grab my pen and write to you. While I have seen that you all are real well.

But I have also read the sad news that our dear Lord has called our much beloved Mother from this world which makes us very sad. But we will hope that our dear Lord has prepared a place for her. And we also hope that we will see her again in heavenly Glory. The most we can now do is pray for her as it is every child's duty to pray for their parents. We will do everything possible. We will arrange to have the Holy Sacrifice of the Mass offered up for her, because our dear Lord has blessed us richly. So we also hope he will bless our beloved parents with all heavenly glory that is what we ask of God.

Also read that B. Schulze Forsthoefel and B. Klonne want to come out here wishing them much success and also find a better home than what is out there. You will read that out of Ludwig Sudhoff's letter.

Much news I can not write only that we may find our brother and sister and your families in good health and the best of everything. And so I think if you were here my dear brother with your family you would not have 1/10 the trouble as you now have. We live here like God in France.

So I will close my writing as we are having 40 Hours devotion in Adoration. So with this I hope my letter finds you in better health. My regards to our beloved sister Catharina and all our relation and all the people we know. Regards to all old and young hoping you are all in the best of health.

Beloved Mother, Sister and Sister-in-law,

While time allows me to sit and write a few lines how it still goes in this world. My last writing from 4 and 5 months ago. I think I have found you in better health. I must write that I am yet very well and have by now not missed a day's work, which I hope the same of you.

As we came to Cincinnati, Lisbeth and her man rode with us till Hamilton. This is 20 miles from Cincinnati. They drove to her man's sister, this one is married. Here we stayed one night, this was a nice community. This man I gave $200.00 at a ?% interest per hundred. On the 10th William and I drove farther on the train to Piqua, this was yet 60 miles. Here we did not know the way, so we set our belongings down, and went in the town, and our luck found a few Germans. Here most people are English. We then drove with canal boat to Minster, this was 20 miles. Here we came the next morning at 3 o'clock and here we were left off. We waited till day light then we went on to Santa Rosa. The people showed us the way and here sure enough we found Joseph Homan. It had rained a few days before and it was very muddy. As we came there everything was in order. The people were all real healthy and we found a friendly welcome. Joseph has 4 children, his wife and mother-in-law are all real well and hope the same of you all.

On one Sunday we drove to Fred Forsthoefel. He and his wife and children are all well and are living well. We were also to Bernard Homan. He and his wife and children were all real well and also live well.

This week we worked for Joseph, and on another Sunday we went to Gerhard and Carolina at Santa Antoni. Gerhard has a so big a farm, that is yet bigger than yours dear brother. Gerhard has 6 children, they are all real well. May is also with his family real healthy and live well. We were acepted by all. I and William worked 14 days together. The most corn Joseph has planted because here they plant earlier than

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

where you are. He also sowed wheat 40 bushel wheat. Weeks later we made off field corn, this is corn that can get 12 feet high. If you had 10 hills that was all one could carry. William is now at Gerhard's and earns $125.00 a year.

Special news I cannot write except that the times here are not bad. The hard times you talk about is not here. The whole time I have been here I have not seen any rye bread. It gives here white bread and meat three times a day every day. Joseph has yet 46 hogs where from he wants to sell some, and some he will slaughter they weigh 150 lbs., and he wants to slaughter a very nice big fat oxen.

Beloved Mother make yourself no worry over me and stay in a good mood. I will get along with the times as there is yet enough land to get for a reasonable price. Beloved Mother what our faith tells us is that the people here are so much better off than over there. Although not so many chances to see girls at all. To church we go 2 times every Sunday. Dancing entertainment is here not at all. One saloon where with we must all get used to. <u>This is at all nothing</u>.

Dear brother America is a good land for a young man. Now about plowing. The plows here are different than yours. The right hand horse always goes in the furrow. One can plow real good. The plows are much stronger than yours. We can plow around stumps and plows do not break. I could get along well with them right away. Dear brother Bernard if you still want to come this spring, so write me first because you should bring something for Joseph Homan. Dear friend Bernard Klune you could get along here well, because bricklayers are paid well. Dear friend Heinrich Hoehne if you want to learn different you can come along too. Carpenters earn 5 dollars a day in the towns.

Dear Brother my address I will write on the other side. You can write me at Joseph Homan, he will forward it to me. Now I will close my writing in hope it finds you in good health. I remain your obedient son and brother.

Ludwig Sudhoff

Greet everybody we know and all relatives too from me.

Nov. 27, 1869

Beloved Mother, Sister and Sister in laws,

Your dear letter that you wrote the last time to Ludwig I have also read, and read that you are yet all real healthy which we also are now yet and have not been sick for one day. I have also read that I should have wrote you how far that gold money goes over here. That I couldn't, because I have taken all my gold money to Santa Rosa to Joseph Homan. There I yanked it open in the presence of an acquainted man from Munster. In my last letter I wrote you that we had to leave our belongings and our 6 umbrellas behind. The whole story has come to us again. As 8 weeks went by I received a letter from New York saying if I wanted my clothes and umbrellas I had to send 30 more dollars. I asked Joseph Homan about this, he said we will send the 30 dollars if we could still get it. In 14 days we received our belongings all packed real nice in one box in Minster.

Gerhard Homan and May came and both paid alike so also the cloth coat and pants. This was for once an expensive gift. But it is nice and worth much to have something that comes from Germany. It did cause me worry that I had much trouble with these gifts but I got rid of all of them. Also that good Winegardner's coat that he kept. I was here in Santa Rosa and it was in Cincinnati. I wrote him 2 letters. The first one he did not answer. But my second letter I received an answer. It did make him feel bad, as he had already bought a new one. This was not at all the reason, as new clothes was much too expensive for him. This his brother Anton Weingardner said, that coat his brother had taken along. That old fool. It surely is nothing so terrible. Although I could have given it to somebody also. So a few dollars lost. Beloved brother William I now have to write you something how it goes here in America. It is here a very bad autumn. Middle October it started to freeze and has almost froze every night and we had lots of snow, and still some on the ground

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

now. It has also stormed (thunder & lightning) that many apples froze on the trees and potatoes in the ground. The older people cannot ever remember this to happen. As they say here the autumns are always good till Christmas. Wheat looks only half way good. As it was time to sow wheat the ground was much too hard. It is sowed earlier here than you sow. It is usually sowed in September. In October we do not sow wheat no more. 4th of July the wheat is ripe over here. Wheat and corn is the main crops. Rye is not sowed much, because they eat white bread here. They don't know about rye bread. Corn is also very poor. It was much too wet, as I came here first it rained almost every 14 days. The crops are harvested with machinery. The machinery work real well even if the land is uneven or has furrows, the machinery goes right on over. This last year wheat was very good, the most years the outlook for wheat is not so good. Bushel of wheat is $1.00. Horses that are good have a good price, same as in Germany. Cows and hogs are very expensive 100# $11.00 to $12.00 for young hogs. It is surprising when one comes to those big farmers who have 30 to 40 such big lummels in the stabel, when the smallest ones weighs 200 lbs. Therefore much money is made. The hogs come all together in stable and fed with field corn the way it is grown. Sows are also fed but do not come in a stable must make their bed outside. The buildings here in America are not like in Germany. Most houses are made from logs. One log is one tree. The two side of a log are hewed flat. Every four logs for one Lring (German). In one house goes 60 trees. Then they make doors, windows and floors. It is made so strong so they can put wheat on them to dry. Then it is finished. They finish the inside with sand and lime. Then it looks real nice and lives well there in. There are also some houses made from brick. This works well for the older people who have their sons grown. They also make a brandy to drink and it tastes real good.

This is how they plow. 2 horses pull the plows sometimes 3 when it don't go no other way. This fall the ground was so

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

hard. The horses here are good, but you find too many that have no good eyes. That comes from they get fed with corn and that makes too much heat.

Now dear brother I must also tell you that Ludwig and I made a trade. We have looked at a piece of land, but it did not suit us. Here is plenty of land to get, but always something not right either it is too wet or the buildings are bad. So one always has to fix them. We bought by Santa Antonia where Gerhard and May live and more acquainted ones. I bought 80 acres with a house and barn and an orchard, 14 acres of wheat are sown for $2300.00. God give me luck. It is 3 miles from church. Ludwig has bought heavier. He bought 120 acres for #2400.00 but is not much cleared land. He will have to work hard to cut those big lümmels to the ground and burn them. Nice house and barn. This you can believe for sure what is wrote here. And on April 1 or before Easter or after Easter will be married if we stay healthy. The Bettstelm (German) are already ordered and therefore I will write you more later. This is the whole story and this is the way it is truthfully. (This letter is not signed. It is not Ludwig Sudhoff's, possibly it was written by his brother Bernard Sudhoff who also came over.)

Beloved Mother, Brother, Brother-in-law and Sister,

A long time had passed since we had heard from you so we thought of our homeland so far away when all at once unwarned and unexpectedly a letter from Brother-in-law Homan and several gifts arrived at my house. In that letter I have seen that our dear Mother, brother and sister, brother-in-law and sister-in-law are all yet real well and in good health which makes us very happy. While we also right now are all real healthy. Ludwig has brother-in-law Heinrich letter. Also read Ludwig has with his wife 3 children, 2 boys and 1 girl. I have with my wife 1 boy 4 years old and 1 girl 2 years old, and all real well. With what we have here we can all be satisfied and we all live well. It has made me and our wives and children unusually happy that we all together got new dresses from our homeland for which we all express our thanks. They fit real good.

We have had a severe winter here and bitter cold. It has froze every night from October till middle of April. It was here in January so cold one could not work outside. The wheat looks very bad, it is frozen out. Also the rye and winter barley. Wheat is cheap $1.00, rye $1.00, barley 80¢, oats 60¢. Oats is so expensive as it has never been for as long as I have been here. Hogs were high this winter 100 lbs. $8.00. I and Ludwig drove to Bremen 4 load slaughtered hogs $100.00. Feeder hogs are very scarce in this area, as too many have died from the hog sickness. I have now 20. Ludwig has 35 old and young. Horses are cheap that comes from oats and corn are expensive, 80¢ a bu. I have sold on April 20 a one year old colt and 2-2year old oxen for $70.00. Milk cows are a good price 30-35 dollars. Now both of my mares each have a colt. The first one came March 30 very nice colt. The other one came April 18. White mares colt really looks nice. When it gets older it will get yellowish brown. Ludwig also has a colt by his mare. He sold his old horse and bought

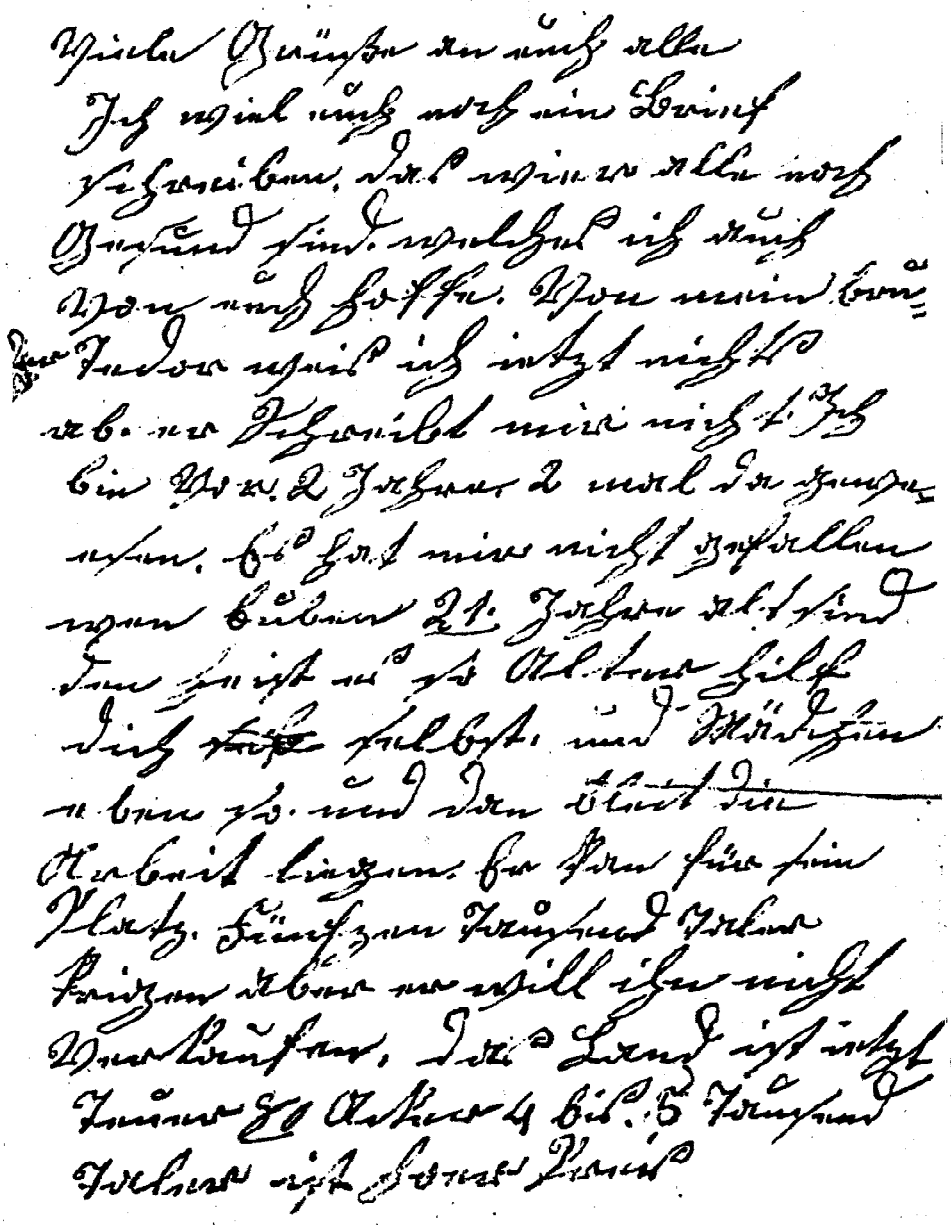

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

himself a Walerk (German) for $100.00.

Anna Homan and Gerhard Knapschaefer were here to see us. They told us much from the old homeland. Everybody is real well. Hy. Homan is getting married. Bought 100 acres, not far from where Anna Krampe lives my sister in law. Tras is also getting married will really make it out good. She still works yet in Rosegarden by farmer Woeste and earns $100.00 a year. The old father has 200 acres of land and 2 sons. That old father wants her to be a wife in his house. Johan Linneman and Nerderman were also at my place.

Letter written to Bernard Avermann from Henrich May

April 9, 1904

Many Greetings to you all,

I will write you one more letter, that we are all real healthy, which I also hope the same of you. About my brother Tedor, I just don't know anything. He does not write to me. In 2 years I have been there 2 times. Here in this country when boys are 21 years old they often go work on their own and girls also. He has not much help. He can get 15,000 dollars for his place, but he does not want to sell it. Land is now high in price, 80 acres 4 to 5 thousand dollars is the price.

It has been here this winter bitterly cold which we can never think of before, and it is always wet. Meat is high in price. Young alive hogs cost 5 dollars per hundred pounds. Making money is no real problem if one has 40 or 70 of them that weigh 200-250 lbs. I have given all of my possessions over and have one room in the house with food and drink free, and one horse with feed to feed him free. Then I can with my wife drive where ever we want to, because we have no other pastime. Money enough and when we are dead then let them divide what is left. The farms here are now high in price, 80 acres 5,000 dollars. I must yet buy one as one is still single. I think land will get cheaper.

Gerhard Homan - Griesdorn from Herbern died this fall. I will be following him soon. I was in September 78 years old. We received your letter and did not write you back. Write to us again. Live well. I will send you greetings.

Hallimore,

Letter to Heinrich Mai in America from nephew Bernard Mai in Germany.

Ameke, Jan. 12, 1899

Dear Uncle and Aunt.

We received your letter, which we enjoyed very much. Last year we sent a letter, but did not receive one. We are all well, just like you wrote about yourself. Our father is still well and cheerful and is always glad to receive a letter from America. Most of the people his age passed away. Mai in Nordholt died last week. Old man Schlüter is very sick and is expected to die soon. Four from us married and the number is getting smaller. The army life is over, the last one left last fall and served in Berlin as an Infantry-guard. Presently we have five horses, we lost one last fall, but we bought another one, one will have a foal. We have twelve cows to milk, we have 50 liter milk to sell every day, 12 pennies per liter. We have six two year old cows, and eight one year old cows, the cattle price is good, cows bring 80 - 100 Thalers and sometimes more. We have eighteen pigs, we sold four and they are worth 41 - 42 Marks. The weather is wonderful during this winter, just like spring. We didn't have any snow this winter. Last sumer, during the rye harvest we had little rain. All sumer long one could hardly plow, and therefore people had to work the fields in November and December. The roads are repaired with cinders, we have really good roads now. One needs only two horses now, compared with five or six before. Closeby in Drensteinfurt are three factories. Many people work in factories and farmhelp is hard to get. They found coal in many places around here. Therefore they do not use much wood. We sold the woods in the cattle pasture at Buttermanns last winter for 1000 Thalers. This winter we plan to sell some more but the time is not right. Herman Middendorf sold some land for 4000 Thalers. He is not in the best of health, he could not attend church lately. His oldest son has a bad foot and has to use a cane, and is very sick. We told Middendorf he should write to his brother. Perhaps next year we will build a grain barn, because the place is now too small for the cattle and the pigs. The grainprice is high, 200 pounds wheat for 17 Marks, rye is 15 Marks and oats 16 Marks. Last sumer we bought a mowing machine. With this I will close my letter and hope to hear from you soon. Many greetings to all of you. Bernard May, wife and children.
Greetings also to Luckmanns and your brother Theodor, and we wish you all a happy New Year.

Note: 1 Thaler = 3 Marks.

Grandmother and Grandfather, what lies behind these names is far unknown but having a grandmother, I still have a link with how people lived eightyfive years ago. My great-grandmother, Catherine Crammer, was married twice. By her first husband she had one child, a girl. Marrying again she came from Cincinnati and settled in Philothea, about fifty miles from Dayton. Here they lived the remaining years of their lives. When they first came to Philothea, being one of the first families to settle there, no houses were there to move into, but acres and acres of thick woods. The first task was to clear a place to build a cabin. For furniture they had one table, a bed, and a few chairs. Here their family increased and my grandmother was then born.

She had two sisters, Mary born in 1850 and died in 1936, and a stepsister Catherine who died in 1925. She had another sister Gertrude who died in 1862. There were five brothers, Dick and Ben were twins, Joseph, Henry and John, making a total of eleven in this German family.

The children went to a one room school one mile away. The books from which they learned were a Reader, Speller, Catholic Bible, and Catechism. These were all in German print. At the age of thirteen years they went to work on the farm. In dressing for school they wore wooden shoes. On Sunday they wore high leather shoes. Their clothing was all hand made. Their mother would spin the wool and then color it. She made her own linen from the flax they grew themselves. After spinning this wool and linen, they would send it to a man who would weave it. She even made the men's trousers.

Their four room house was made of logs and poorly furnished. In the kitchen was a table, a cook stove, and a few chairs. In the second room which was mother's and father's bedroom, was also used as a sitting room for company. In this room was a rocker, the only one they owned, a bed containing two feather mattresses, and a heating stove. The other rooms were bedrooms, one for the girls and one for the boys. In the upstairs was stored the wheat and oats. Many times squirrels would make nests in the grain. Squirrels at this time were very plentiful and anyone could hunt them.

Around the house was wood and farm land and neighbors who lived a couple miles away. The custom of today's farming is different from that of eightyfive years ago. For as my grandmother tells they would leave their pigs run, not in a field with a fence around it, but could roam where they wished. This was the custom of every farmer. Every farmer had his mark on the pigs ears, some were split, some were cut on the top of the ear, and some were cut on the bottom. They would leave the pigs go in early fall and hunt them in late December after the first snow. Many a time their pigs had increase which they knew nothing about. The cows would be loose all the time and at milking time they would hunt and hunt. Sometimes on Sunday mornings they could not go to church due to hunting for the cows. Besides raising cows and pigs they raised sheep, chickens and horses. On the farm they raised wheat, oats, flax, sugar-

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

cane, broomcorn and rye. The broomcorn was used to make brooms. At a certain stage this broomcorn was bent, I can not tell why. After leaving it this way for a while they would cut it off about a yard long. From this they would make their own brooms.

In the woods they had forty maple trees tapped and from these they made their own maple sugar and brown sugar. They would make their own cane molasses which was a long tedious process. Sometimes it would take till eleven or twelve o'clock untill they would be finished. This was usually sold for fifteen cents a gallon. They made their own corn-meal, but flour they purchased at Piqua, Ohio. Many a time the roads were bad, especially in the spring. They could not get flour then so for a month or two they were without flour. Outside the house was a fireplace with a oven which held twenty loaves of bread. Every week this oven was used to bake twenty loaves of bread and if company was coming as high as thirty loaves were baked. In the back yard were two wells. They did not have pumps to help the water up, as we have today, but they had to draw the water up in a wooden bucket. Once in a while some cattle would wander home and water had to be supplied for them and this was a hard task.

As the neighbors lived some miles away and did not see one another very often they would go to each other homes on horse back and spend a day of pleasure. One neighbor raised peacocks, so called a hobby today. They would cut the beautiful tails and use them to chase flies from the house and from the tables, for screens were not introduced then at Philothea.

The neighbors would have a barn dance many times and enjoy a pleasant evening.

The Catholic Church at Philothea at that time was made of logs. There were twelve families. Before this church was organized they went to Celina when the roads would permit. The church was like the average size school room of today. It was furnished with an Altar and some benches, a stove and one wardrobe in which the vestments of the priest were kept. As the church was very cold it was interesting to know that women kept their feet warm by taking a wooden box then filling a can with red coals and put this inside the box. Many a time the box caught fire thus causing some disorder. There were about four or five rows of benches. The children who would cause disturbance were hit hard on the back of the head by a man who was appointed to watch them.

The Civil War broke out when my grandmother was ten years old. Men were called for their service but sometimes men did not have to go. They would hide in the woods and sometimes lived there for weeks or if they paid one hundred dollars they did not have to render their service. At this time coffee was seventy five cents a pound and muslin was seventy five cents a yard. A coffee was named after President Lincoln, called Lincoln Coffee. Since coffee was so high, many farmers drank rye coffee. They took rye and roasted it. Most of the families around Philothea bought green coffee.

The winters seem to be different than those of eighty years ago, much colder than those of today. It would get so cold that the geese would freeze to the logs they were occuping at the time it turned cold.

Optimization & OCR by Andy Niekamp ~ andyniekamp@gmail.com ~ www.andyniekamp.com

At the age of twenty four my grandmother was married. Twenty four was thought old to get married in those days. The age was sixteen or twenty. She married Henry Homan who came from Westfalen, Germany. He had two brothers, Theodore and Gerhart, and one sister, Elizabeth. Earlier Theodore married my grandmother's sister, Mary, and had fourteen children.

My mother was born in a log house, later moved in a frame house with eighty acres of land at Coldwater, Ohio. She went to a one room school until she was fourteen years old. They did not go by grades as we do today, but went by readers, first reader and so forth. The class was usually made up of ten pupils. My grandfather, mother's father was director of this little school. His duties were to get a school teacher, pay him his salary and see if they had enough wood for the stove and so forth. In the dressing for the school in the summer they would go barefooted and usually wear a red or pink sun bonnet. In the winter they wore home made woolen stockings and high shoes. As soon as they were fourteen years old they had to work very hard on the farm. At age seventeen, mother came to Dayton to do housework. She was married to William Fahrig of Maria Stein.

Written by Rita Fahrig, age 17, as a senior project, about 1935.

GENEALOGY -- Begins as an interest, becomes a hobby, continues as an avocation, takes over as an obsession, and in its last stage is an incurable disease.

SPECULATION -- When Did They Come ?

Family tradition says that Joseph Homan came before he was 21 years old to escape the military. Also he was supposed to have come with his two brothers Gerhard and Bernard.

Here are some dates showing the following events in Herbern:

1848 - Aug. 22 Bernard was baptismal sponsor for Anna Catherine Reiman, his half-sister's daughter.

1849 - March 25. Bernard was witness for the first marriage of his brother Heinrich.

1850 - Aug. 4. Gerhard was baptismal sponsor for Anna Homan who married Gerhard Knapschaefer here in America.

1851 - Oct. 3. Gerhard was witness to the second marriage of his brother Heinrich.

1852 - Dec. 9. Bernard was baptismal sponsor for Herman, Heinrich's son.

1853 - Sept. 7. Gerhard was baptismal sponsor for Gerhard Reiman, his half-sister's son.

1854 - Mar. 4. Joseph was baptismal sponsor for Anna Gertrude, Heinrich's daughter.

These names were on these records. Were these our pioneers or were there others with their same names ???

Gerhard and Bernard's passports read that they came -- 1800 Fünfziz und Fünf. Is this 1855 ??? Usually German is written 1800 Fünf und Fünfziz.

In 1868 came Bernard Klune, Bernard Sudhoff, Heinrich Hoehne and Anton Weingardner.

Julius Nerderman of New Bremen in the fall of 1981 told me that his grandfather, Herman Nerderman, born 3 June, 1842, whose parents were Theodor Herman Närdeman and Maria Cath. Möllmann from Ondrup near Herbern, came to the United States in 1870 or 1870's with John Selhorst, Gerhard Knapschaper, and Tedore Homan.

In Germany, the oldest son inherited the farm, married and usually lived on the farm, with the parents. The other children moved elsewhere. Usually each child was given a monetary sum as his inheritance when he left.

Here in America, since there was much land available, the early pioneers all tried to give each child some land when they married. They worked very hard to do this. Usually, the parents gave them a good start, and if the farm wasn't completely paid for, they let the son pay the rest of the farm.

There were many residents of Mercer County, Ohio, who came from Herbern, and Walstedde in Westphalia, Germany, south of the city of Muenster. They began coming in the 1840's. The earliest ones to come were Joseph Homan and Peter Griesdorn. Gerhard Homan was one of the early pioneers of St. Antoni's Church. More came in the 1860's and the 1870's. Most of the immigrants were single, but there were some families that came, example, William Wellman came before he was eighteen with his parents and brothers and sisters. Many made their first stop at Joseph Homann in St. Rosa, west of Maria Stein. If they had no job or no place to stay, he got them work and helped them to get settled.

SPELLINGS OF SURNAMES -

In Germany, the Homan name was spelled generally "Homann". Also in the records it was spelled Homañ and Homā with a line across the last letter. When the Homans came to America, they dropped the last n.

During the 1700's the May name was spelled Meÿ, with the umlaut over the y. During the early 1800's May was spelled Mai. It was changed sometime after 1875 to May. Johan Heinrich May of St. Anthony, Ohio signed his name in 1904 as Mai. However, the May family in America spells it May.

In Carolina Homan May's letter to her brother Heinrich in Germany after her mother's death was a whole lesson in religion. Her remarks of praying for the dead, going to Mas on Sundays, and about Forty-hours Devotion said much.

****

Gerhard Wellman of St. Anthony, Mercer Co. Ohio, was the first of his family to come to America. Gerhard is the grandson of Anna Maria Homan. Gerhard was the oldest of the family. The parents, Heinrich Wellman and Anna Christina Weingartner, and their children came in Nov. 1864. We know that Antony, Henry, John, and William were naturalized citizens. There were daughters, Catharina, Elisabeth (twin), Anna (twin) died at 3 months, and Anna and Anna Marie (Mary). These daughters also came to America.

The German country was so devastated by the Thirty Years War 1618-1648. This was essentially a religious war. Westphalia's land was colored red with the blood spilled by the warriors and residents. During this time most of the churches and their records were destroyed.

****

The Council of Trent 1545-1463, the 19th Ecumenical Council, set forth several decrees that are important to the genealogist. It decreed that all churches must record all baptisms, marriages, confirmations and deaths of its parishoners. Also, it became mandatory that all marriages were to be public, with three witnesses, a priest and two lay people.

There are few records earlier than 1500 in Continental Europe, and most of these records begin in 1600 or 1648. Most families cannot trace their lineage back any further than these dates unless they are of royalty.

Münsterland is also known as Castleland. There are many castles still standing, and used in Munsterland. The largest ones are being used as schools and universities. The Itlingen Castle near the Mays is one of the smaller castles. The Von Nagel family still lives in it. The May family was obligated to this castle until 1848. The Westerwinkle Castle just west of Herbern is a museum. It is the site of the signing of the Peace Treaty of Westphalia, ending the Thirty Years War 1618-1648.

Beginning in 1100's, the powerful German nobles forced the peasants to become serfs and work for them. Sometimes serfs would become free and work in towns. Serfdom lasted longer where there were few towns. The Mays in Walstedde had to work for the castle owner until 1848, when all Germans were declared free.

The immigrants came in waves. Several came and begged their relatives and friends to come. This is the way the German communities were settled making it easy to keep the German language and customs.

As a result of World War I, when everything German was unpatriotic, the language and customs were down played and gradually English took over in the churches and schools.

During the ecclesiastical reorganization in 1821 the old areas were divided into Bezirk (District) Münster and Bezirk Oldenburg.

Westphalia, Muensterland, Germany is a good farming area. The land is flat and very similar to Mercer County. The successful pioneers wrote letters back to Germany telling their brothers and sisters and friends to come to America. They told them there was less trouble here. We can imagine this meant, there was no war, and no military conscription. There was plenty of food and plenty of cheap land.

Anna Maria Griesdorn, the first wife of Bernard Heinrich Homan (father of Gerhard, Bernard, Joseph, and Carolina), was the daughter of Anna Maria Griesdorn and Theodor Henr Nientied. Since Anna Maria, Bernard Heinrich Homan's wife, owned the farm, Bernard Heinrich assumed the Griesdorn name. Evidently Anna Maria's mother also owned the farm before Anna Maria died, since her father's name was Nientied. When searching for the birth record of the immigrant Peter Griesdorn, I could not find it. Maybe I should have been looking for Peter Nientied.

Each farm had the name and kept this name so the government had control of the tax record.

The pioneers in America invented or created the quilt. There are no quilts or patchwork quilts in Germany. The quilts were an innovation of the pioneer women who did a lot of sewing. Out of necessity they saved every scrap of material and pieced these together in beautiful designs. Today there are still quilts around that are over 100 years old.

The rocking chair also was invented by the Americans. Benjamin Franklin is credited with this. One of my great-grand-mothers wanted to come to America because she heard the women sat in rocking chairs and didn't need to work so much.

Gerhard May, the third child of Henry May and Carolina Homan was born 12 Sept. 1865 at St. Anthony, Ohio. He grew up attending St. Anthony church and school. He purchased a farm west of St. Anthony in Jay County, Ind. He then married Elizabeth Rosina Diller born 15 Apr. 1871, daughter of Sebastian Diller and Josepha Biggs of St. Anthony. Rosina also attended church and school at St. Anthony, Ohio. Gerhard farmed all his life. Their children all attended St. Anthony, Gibson, and Büettle schools at different times. Gerhard and Rosina attended St. Anthony church their entire life. Gerhard treasured his German heritage as they always read and spoke German. They received German newspapers and magazines. They also spoke English but always prayed in German. When we were small children and would spend our vacation in the summer with them they always said their night prayers in German. The only prayer we could understand was the Hail Mary.

Gerhard and Rosina's children were Lidwina and Caroline who never married. John married Louise Schmidt of Cincinnati, Ohio and lived on a farm near Trinity, Ind. Clem married Eleanore Schmidt of Cincinnati and lived on a farm also near Trinity, Ind. Elizabeth married Joseph Schmidt of Cincinnati and lived on a produce farm near Cincinnati, Ohio. Hildagard married Henry Wagner of Celina and lived on a farm near Frenchtown, Ohio. Alphonse never married, died while working at a convent in South Dakota. Frank married Cecelia Voskuhl of Maria Stein, Ohio and lived on a farm near Frenchtown, Ohio. Mary married Urban Reitz of Trinity, Ind. and lived on a farm near Trinity. Marvin is still living on the Gerhard May homestead. Cletus married Esther Schmit of Trinity, Ind. and lived on a farm near Trinity. Rosina died 28 Sept. 1935 and Gerhard died 1 Feb. 1939 at home. Both are buried in St. Anthony cemetery.

Anthony May

Anthony May, known as Tony May, son of Henry May and Catherine Boeckman was born 2 Sept. 1882 at St. Anthony, Ohio. He grew up on the farm where he was born, attending church and school at St. Anthony. After his father died he went to Wisconsin to work, living for awhile at Marshfield, Wisconsin and later residing near Milwaukee. The family lost contact with him as years went by and he was not heard from. He had never married as the family knows nor does the family know his where abouts.

In the 1940s, according to the 1940 U.S. census and his 1942 draft registration card, Tony was living in Oshkosh, Wisconsin and working for a John Kox(Cox) a dairy farmer at Rural Route #1, Omro, Wisconsin in Winnebago County.

Obit: **Man Found Dead Sitting in Chair** – Anthony May, 72, of 38 ½ Main St., was found dead in a chair in his room at 11:50 a.m. Sunday(8/3/1952) after having complained of feeling dizzy earlier in the morning. City police were called when another roomer found him seated fully clothed in a chair. Dr. G.A. Steele, Winnebago County coroner, said death was due to a heart attack. Al Prell, another roomer at the Main Street address, said Mr. May had complained at 11:25 that he felt dizzy. Mr. May was born in the Town of Washington, Mercer County, O. He had lived in the vicinity of Oshkosh for most of his life and had been employed as a farm hand in this area. There are no immediate survivors. Funeral services will be held Wednesday morning at 10 o'clock at the Fine and Bills Funeral Home. Interment will take place in Riverside Cemetery. Friends may call at the funeral home Tuesday evening and until the time of services.

to die she married his brother Bernard Theodore as the trip to America had already been paid, as the story is told.

They came to America in 1858 after they were married and settled on a farm at St. Anthony, Mercer Co. Ohio just two miles east of the church on the west side of the Wabash River and north side of the road. As the Wabash River overflowed on their farm and it was always wet they decided to move. They moved with their two children, Henry and Bernard, mother riding side saddle with one in front and one behind her on the horse, it is said. They moved on a farm on Moeller Road, New Haven, Ind. near Ft. Wayne, Ind. The farm is still in the May name. Bernadine May still lives on the farm. Their children are: Henry, Bernard, Anna Elizabeth, Mary Bernadine, Mary Theresa, Christopher, John Bernard, Ann Willamina, and Louis Joseph. Theodore May died Aug. 3, 1911 at New Haven and Gertrude died in Chicago in May, 1921, buried 24 May, 1921. Both are buried on New Haven Cemetery. Theodore May is an uncle of Theresia (May) Tinnermann who is the mother of Tony Tinnermann who came to America.

In the German records Gertrude's name is spelled Dabrok. Here in America it is spelled Darbuck.

Mary Pleiman and Theodore Homan

Theodore Homan was born at 7 o'clock, 21 Aug. 1847 at Herbern, Germany, and baptised 23 Oct. 1847 in St. Benedictus Church, Herbern by Father Weimer. Sponsors were John Theodore Verchman and Cath Eliz. Walterbusch y Grosprinkter. Parents were Gerhard Henricus Homan and Maria Anna Hageman yt Verchman. After he served his time in the army or service of his country and he reached the age of about 27 years he set sail for America in 1873. He traveled on to St. Rose, Ohio, to Joseph Homan. He worked for him for a year as a farm hand to pay for his trip to America. He worked for awhile longer as a farm hand and then bought land at Philothea on what is now known as Post road. This farm is now owned by the Arnold Homan family, a grandson of Theodore. He met the Pleiman family who were neighbors. He went to visit them and stayed for a meal and they served sausage and eggs. In Germany that meant you do not come again for a visit and he thought they didn't like him, but when he left Mr. Pleiman ask him to come back and this made him happy. So when he went again to visit them he decided to ask Mary to marry him. When he ask her she said, "She had to have time to think about it." Theodore said, "He would give her a week and if she couldn't make up her mind he would ask her sister". So they were then married on May 11, 1875 at Philothea, Ohio. Mary Pleiman was born Oct. 29, 1851 at Philothea. Her parents were Bernard Henry Pleiman and Catherine Kraemer. Witnessess to the marriage were John Selhorst and Elizabeth Pleiman, Henry Pleiman and Mary Homan.

They had 13 children, one died at birth. Theodore and Mary lived all their lives at Philothea. Theodore died 28 June, 1924 and Mary died 15 Nov. 1936. Both are buried on Philothea cemetery. Theodore was brother to Henrich Homan who lived at Coldwater, Ohio. He was a cousin to Joseph Homan at St. Rose, Bernard of St. Sebastian, and Gerhard Homan and Carolina Homan May of St. Anthony and Anna Homan Knapschaefer of Coldwater, Ohio

Bernard Homan and Mary Evers

Bernard Homan, son of Bernard Henrich Homann y. Griesdorn and Maria Elisabeth Walterbusch of Herbern, Westfalen, Germany near Munster, Germany, was born 13 Dec. 1825. He was baptised the 15 Dec. 1825 in St. Benedictus church at Herbern. His sponsors were John Berd. Teod. Walterbusch and Anna Christina Kroes y Hageman. He grew up at Herbern and served 3 years in the service of his country before he came to America. He came with his two brothers, Joseph and Gerhard. According to his passport he sailed in March of 1855 from Bremen, Germany. He was supposed to be on the sea 35 days before reaching America. He traveled with his brothers to Mercer County, Ohio. He found work in a sawmill at Cassella, Ohio. He was head sawyer for 4 years. He bought land with lots of brush and woods on it. This farm is located on Homan Road near St. Sebastian, Ohio. He build a log house on the farm and other farm buildings.

On 2 Mar. 1859 he married Mary Evers of St. Rose, Ohio. She was born Sept. 1841 at St. Rose. Her parents were Frank Evers and Mary Frilling. (Her parents were married on 24 Dec. 1838 in Mercer County, Ohio.) He was a farmer and lived on this farm all his life. He later built a brick home and other farm buildings that were needed. His farm is still in the Homan name belonging to Joseph Homan, a grandson. He attended St. Sebastian church. The last ten years of his life he always walked to church every morning. He said, "It gave him exercise." One morning he walked to church and found it had burned down through the night. His wife Mary died 23 Sept. 1907 at St. Sebastian. They were married 48 years. Bernard died 27 July, 1921 at St. Sebastian. Both are buried on St. Sebastian cemetery.

Bernard is a brother of Joseph Homan of St. Rose, Ohio, Gerhard Homan and Carolina Homan May at St. Anthony, Ohio, an uncle of Anna Homan Knapschaefer of Coldwater, and a cousin of Theodore Homan of Philothea, and Henrich Homan of Coldwater, Ohio. Also a cousin of Henrich Wellman and William Walterbusch.

Joseph Homan and Mary Wertmoeller

Joseph Homan was born the 21 Dec. 1828 at Herbern, Westfalen or Westphailia, Germany near Münster, Germany. Sponsors were Jodoc Henrich Homann and Cath Elis Walterbusch. He was baptised in St. Benedictus Church in Herbern, Germany. He is the son of Bernard Henrich Homan y. Griesdorn and Maria Elis Walterbusch.

He grew up in Germany and was in the Service or Army as it was compulsory for every young man at the age of 21 years to serve 3 years in the Service of his Country. When his brothers, Gerhard and Bernard decided to come to America, he wanted to come with them. Gerhard and Bernard had already served their 3 years in the Service. Joseph was determined to go with them so he made plans. This had to all be kept secret so the authorities could not stop him, as he went AWOL from the Army. So at the time of the departure he had to be at a certain time where the ship was leaving. He could not be there ahead of time. So just when the ship started sailing Joseph jumped on and was then a free man. His brothers were supposed to have hid him in a barrel on the ship. He had no passport, Gerhard and Bernard did. They came over in 1855 according to the passports.

He never regretted coming over as some of their letters read. He even coaxed others to come across also. He traveled to St. Rose, Ohio, where he became a farm hand. In 1857 he married Mary Wertmoeller born 1841, daughter of Henry and Anna Wertmoeller of St. Rose, Ohio. They made their home with her parents, as she was an only child. The farm they lived on was the first farm east of St. Rose on the north side of State Route 119. Here he lived all his life. Andy Homan lives on the farm today.

His first wife died when the 10 child, Philomena, was born on Dec. 9, 1876. She is buried at St. Rose. He later married Mrs. Margaret Schroeder on 3 Nov. 1881. She died six months after their marriage on 1 Mar. 1882 of pneumonia. He then married Anna Maria Josephine (Wessels) Brunswick on 17 Apr. 1883. She had a son, Ben Brunswick, whom she brought with her to live with the Homans. She died 18 July, 1898. Joseph died 23 Jan. 1907 at St. Rose, and is buried at St. Rose, Ohio.

He was a brother of Gerhard Homan of St. Anthony, Bernard Homan of St. Sebastian, and Carolina Homan May of St. Anthony. Anna Homan Knapschaefer of Coldwater, Ohio was his niece. Theodore and Henry Homan of Philothea, were his cousins. He was also a cousin of Heinrich Wellman of St. Anthony, and William Walterbusch of Maria Stein, Ohio. His place was always the first place people would go to when they came from Germany. He always helped them to find work or a place to live when they came to Mercer County, Ohio. He helped build the present St. Rose Church. He never returned to Germany. People today still say what good deeds he did for the people who came over from Germany. They say he must have been a wonderful man.
